

THE STATE OF THE STATE OF STATE

There is no doubt that there are forces at play here in Germany that bode evil tithings for the continuation of World Peace and this reporter has rooted out what might be the scoop of the century or at least in this reporter's lifetime.

Critical information has come into this reporter's possession that prove that everything that we

think that we understand about our world is fundamentally wrong or misguided.

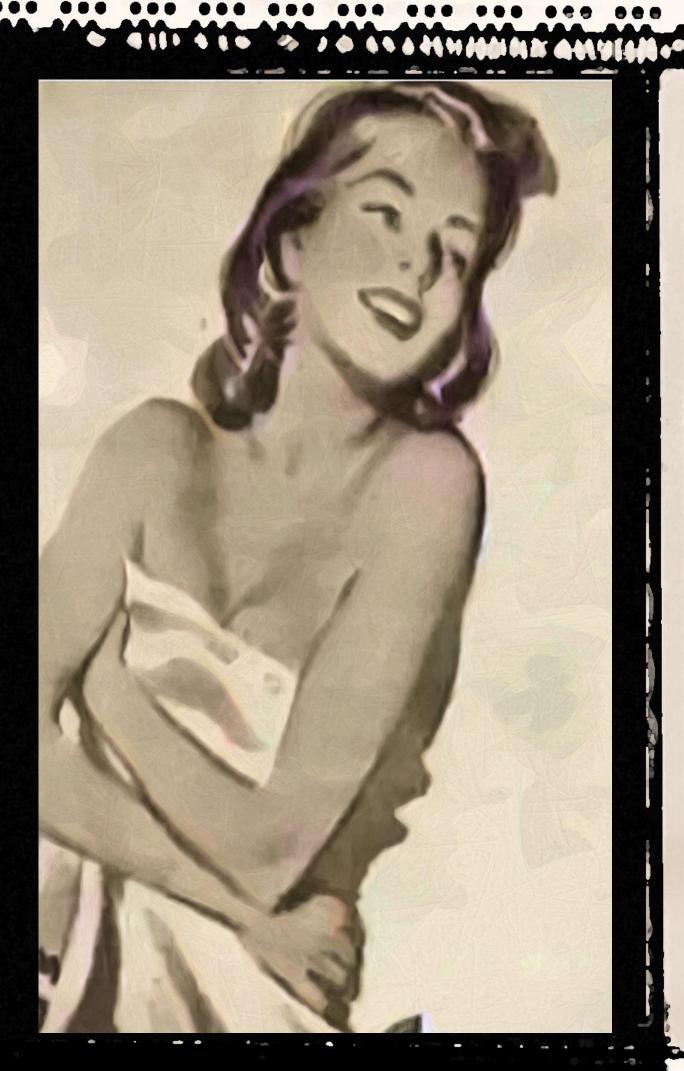

According to several insider sources deep within NATO's Central Command and confirmed by yet another source within the Foreign Office; there is an international conspiracy that involves front corporations founded by senior former Nazi financers,

THE STATE OF THE STATE OF STATE

the aerospace industry, a cadre of fellow travelers from Western Intel Agencies (CIA/MI6) and segments of both the US and Soviet Military leadership to seize control of both the United States and the Soviet Union in coordinated attack sometime in the Autumn of 1963.

What is yet unknown are the logistics, who the

THE STATES OF THE STATES

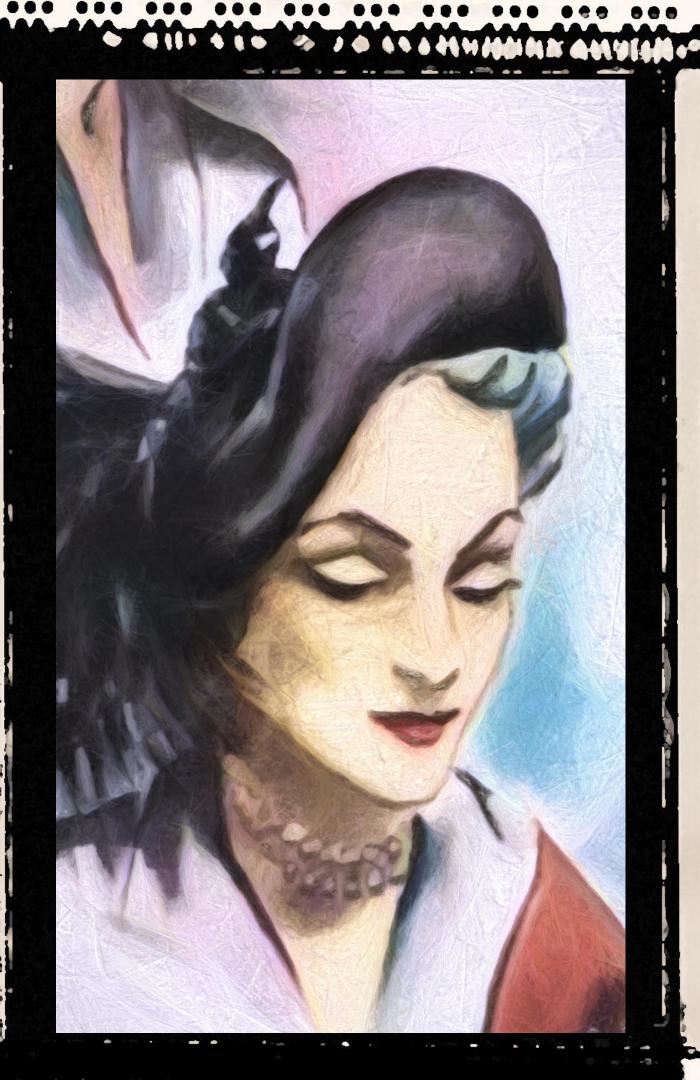

key players are and how this event will be triggered. As incredible this may seem, I have been assured that the plan is well underway and cannot be forted as there are too many vested parties that now have too much to lose. The only hope that my sources have is for the plot to be exposed by independent journalists and the news agencies.

THE STATE STATE OF STATE OF STATE

The problem with their hope was that the major of news agencies and a select number of senior journalist (including several well-know war correspondents) may have already established financial links to portions of the plot planners - especially in regards to the Intel Agencies.

A further point of reader interest is the fact that

I have been approached by yet other sources that suggest that there is nothing to this story other than a ferial mind of a rather untalented, paperback book writer seeking to rip of the plot line of the currently popular movie "Seven Days in May." I have had friends come and council me to drop my inquiry into this none story as I have

RE: Got a hot story for you as I still owe you one from Berlin back in 1945.

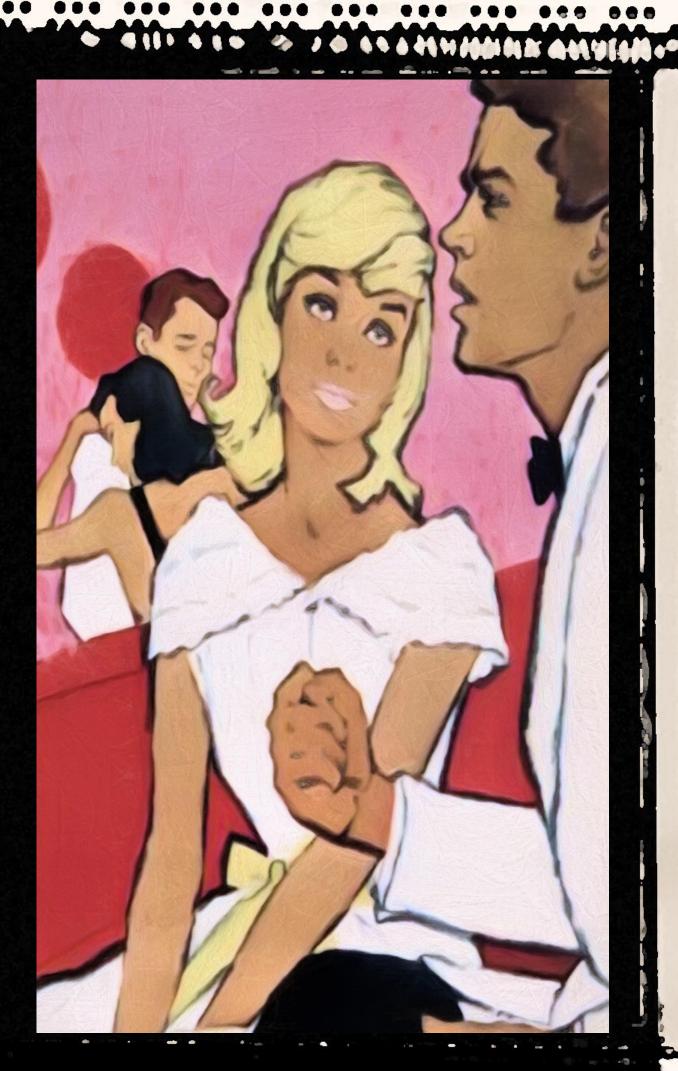

Hey Buddy! Got this story but, I don't have time to cover it.

OK, Campers...

That is how I got involved in what would be (truly) the world's greatest secret story that even after 60 years; I can not begin to tell you without a concern that I might too join the Dallas Crew that are all buried out in the wilds of West Texas not far from Fort Hood in a massive, unmarked grave without a tombstone.

THE STATE OF THE STATE OF STATES

The old man sitting halfhidden in the smelly doorway looked me over and then mumbled: "Follow the Hippy Road!" I wasn't expecting that and could only rally in reply: "If you are gone be on acid...you should have brought enough for everyone!" What else could you say when some random hobo badly misquotes the

way that he had always moved forward. Haven't though of my old Uncle Ben for lot of years but it does make me smile as he was a rather odd sort of fellow who was always complaining about how his shoes were too tight and he explained that was why he kind of swished as he walked down the back alley of Bourbon Street - back in his lost glory days.

Some might question the importance of Uncle Ben to this story and I would freely agree that so far in this story he is but a bit character in what I hope doesn't turn into a classic Russian Novel only to find after a thousand page (give or take) that Uncle Ben was the vital key to properly understanding the backside of this twisted tale in a plot to seize control of the world. In this regards, let me just
